JSN Micro Flow Meter

Description

Our Micro flow meter is a kind of oval gear flow meter ,along to positive displacement flow meter. there is thousands of manufacturers who can produce oval gear flow meter. but only several manufacturer who have technology to produce micro flow meter.

JSN micro flow meter offer the highest accuracy and measure for various viscosity liquid. special patent technology to measure flow from 0.1ml/min and ensure working life more 5 years.

JSN micro flow meter is wildy used for various industries for precision measurement. So far it has been serviced for more 100 using condition, such as fuel oil measurement, Adhesive control ,Hydraulic life cycle testing, electrolyte dosing, natural gas odorization

0.01 ML/Pulse&Max Range Ratio: 200:1

Max Pressure: 1000 Bar & Explosion-Proof

Min Flow:0.1 ML/MIN
